

MAZDA RACERS READY FOR COAST-TO-COAST SCCA AND NASA ACTION

IRVINE, Calif. (July 29, 2015) – Racers know that on any given weekend, there are more Mazdas on the road-race tracks of America than any other brand of vehicle. No place does that take on greater significance than the season closing championships held by the Sports Car Club of America (SCCA) and the National Auto Sports Association (NASA). This coming weekend kicks off the first of five of the most important weekends of the year for Mazda racers.

“While the professional race series may receive the TV glamor, the heart and soul of Mazda Motorsports are those club racers who bleed Mazda Soul Red. Thanks to amazing cars like the MX-5 Miata, it is our privilege to have more Mazda racers than any other car company within both the SCCA and NASA. Mazda racers typically win the most championships within both organizations, and Mazda pays out more prize money than any other company at these events,” noted John Doonan, Director of Motorsports for Mazda North American Operations. “This year will have many highlights including the NASA Western States Championships at Mazda Raceway, and the first ever nighttime race at the SCCA Runoffs, with Spec Miata being featured under the lights at Daytona.”

Event: NASA Western States Championships

Dates: July 31 – August 2

Location: Mazda Raceway Laguna Seca, Monterey, California

Notes: Among the racers entered are Mazda Senior Vice-President Robert Davis who spends his vacation time racing his Performance Touring Mazda RX-8.

Event: NASA Eastern States Championship

Dates: September 3-6

Location: Virginia International Raceway, Alton, Virginia

Notes: Anticipation is high among east coast racers to battle at this beloved track.

Event: Tire Rack SCCA Solo National Championship

Dates: September 7-11

Location: Lincoln Airpark, Lincoln, Nebraska

Notes: With over 1,000 entries, the Solo championships are proof that grassroots competition with street legal cars is as intense as any form of motorsport.

Event: SCCA National Championship Runoffs

Dates: September 20-29

Location: Daytona International Speedway, Daytona Beach, Florida

Notes: In 2013, Spec Miata set the all-time record for largest race in the 51 year history of

the Runoffs with 63 cars. That record may be broken this year when the Spec Miata race will be featured as the first-ever under-the-lights Runoffs race.

Event: Mazda SportsCar Racing Academy Shootout

Dates: October 25-26

Location: Carolina Motorsports Park, Kershaw, South Carolina

Notes: A select group of racers will be competing for the largest prize in all of club racing, a funded season in the 2016 Battery Tender Mazda MX-5 Cup. This is the tenth annual competition hosted by Mazda Motorsports.

Mazda North American Operations is headquartered in Irvine, Calif., and oversees the sales, marketing, parts and customer service support of Mazda vehicles in the United States and Mexico through nearly 700 dealers. Operations in Mexico are managed by Mazda Motor de Mexico in Mexico City.
