

2024 MAZDA CX-90 WILL BE AVAILABLE WITH PERFORMANCE-ORIENTED PLUG-IN HYBRID

Plug-In Hybrid Tuned Specifically for North America

IRVINE, Calif. (Dec. 13, 2022) – Ahead of its world premiere in January 2023, Mazda North American Operations announced the first-ever 2024 CX-90 will be available nationwide as a plug-in hybrid electric vehicle (PHEV).

While this is Mazda's first plug-in hybrid in the U.S., the CX-90 PHEV will maintain the responsiveness, performance, and driving dynamics that define Mazda vehicles. This all-new e-Skyactiv G powertrain, tuned specifically for the North American market, will provide customers with the best of both worlds in terms of performance and efficiency.
