2020 MAZDA CX-30 | FACT SHEET

Following the well-received Mazda3, Mazda CX-30 is the second model to adopt the latest evolution of Kodo design, a more mature interpretation of the striking design ethos. CX-30 combines the flowing beauty of a coupe and the strong proportions of an SUV; a beautiful design that can help inspire creativity. The proportions of the CX-30 are ideal to take on just about any adventure without hesitation. The interior is equipped with many premium features, yet remains spacious, comfortable and encourages conversations with all occupants. Like all Mazda vehicles, it is benefited by dynamic driving performance that offers an exhilarating experience and peace of mind.

Starting MSRP¹: \$21,900

EPA – Estimated Fuel Economy (mpg)	City / Hwy / Combined
CX-30 Front-Wheel Drive	25 / 33 / 28
CX-30 i-Activ All-Wheel Drive	24 / 31 / 26
CX-30 Premium i-Activ All-Wheel Drive	25 / 33 / 27

[1] MSRP does not include \$1,045 for destination and handling (\$1,090 in Alaska), taxes, title or additional fees. Dealers set actual sale prices. Effective February 3, 2020, all 2020 Mazda CX-30 vehicles released from port after this date will increase destination and handling to \$1,100 (\$1,145 in Alaska).

2020 MAZDA CX-30

Mazda has always adopted a human-centric approach to building cars. With the U.S. debut of the all-new Mazda CX-30, the brand has taken this approach to another level. The CX-30 has a feeling of oneness that extends beyond the drive. It is a five-seat, crossover made for a wide range of fans, especially young people who are approaching significant life transitions. Mazda wants the CX-30 to be able to help these fans enjoy those milestones to the fullest and become an essential partner in their daily lives.

CX-30 is the second model to adopt the latest evolution of Kodo design, a more mature interpretation of the striking design ethos. Based on sleek and bold styling, CX-30 is meant to evoke creativity in one's life. Realizing two contrasting expressions, the compact crossover has the flowing beauty of a coupe and the bold proportions of an SUV. Mazda's signature wing takes on a sharper and deeper form to achieve a strong, refined front end that is suggestive of forward motion. The diagonal angle of the rear window gives the vehicle a coupe-like silhouette while the narrowed arch shape of the liftgate makes the body look shorter and wider for a powerful stance. This allows for purposeful design of the trunk that maintains its usefulness without giving the CX-30 a box-like appearance. Offered in seven body colors, including Polymetal Gray, which was recently introduced for the 2019 Mazda3. Going beyond beauty, CX-30 is meant to look compact on the outside, but spacious on the inside.

2020 MAZDA CX-30 | LIFE WITH CREATIVITY

2020 MAZDA CX-30 | LIFE WITH CREATIVITY

The appealing exterior is matched with a comfortable, premium-feeling interior. By studying the human body, engineers were able to position the seats to give all occupants proper posture, not just the driver. The idea is for each ride in the CX-30 to be a pleasant time for all. The

human-centric cockpit helps the driver feel connected with the vehicle but is not isolating from the other occupants. The floor console is outfitted with convenient, easy to access features and storage compartments, but intentionally eschews a distinct divide between the

driver and front passenger. The openness of the cabin encourages conversation that helps bring people together through the time spent in the CX-30. A focus on interior comfort and everyday user-friendliness makes this all-new compact crossover a car for everyone.

2020 MAZDA CX-30 | A PLEASANT TIME FOR ALL

With an inviting cabin, the engineers wanted to preserve the peaceful environment by focusing on the noise, vibration and harshness (NVH). Every aspect of the CX-30 was measured, from the tires to the headliner, to minimize any road noise. During a comprehensive study on how sounds are transmitted through the vehicle's cabin, speakers were repositioned depending on their frequency to produce a better sound. One of those changes was to mount the woofers, normally found in the doors of most cars, onto the side cowls. This allows for an audio system with more bass that won't rattle the doors. As an additional benefit, the lack of a speaker port in the door reduced another area where potential road noise could disrupt the experience in the CX-30. Ingenious solutions such as this reflect the passion and attention to detail by Mazda engineers and designers working together to achieve a common goal of providing the best experience possible for the brand's fans.

2020 MAZDA CX-30 | A PLEASANT TIME FOR ALL

2020 MAZDA CX-30 | A PLEASANT TIME FOR ALL

Other design features include the rear footwell being slightly slanted to provide rear passengers optimal space to sit relaxed in the rear seats. The side sills in the door jams are subtly rounded to ensure comfort

when entering or exiting the CX-30 in case one's legs inadvertently make contact with it, while not creating a gap in the door seams. Significant effort goes into the craftsmanship of a Mazda vehicle. While attention

to those efforts might not be noticed right away, it will be felt throughout the enriching experience of driving and owning a Mazda.

2020 MAZDA CX-30 | DRIVE WITH PEACE OF MIND

Another key focus of a human-centric approach is helping the driver drive with peace of mind. Being one with the CX-30 is more than just the driving dynamics, it's the feeling of confidence and security in the cabin. The ideal seating position is important, especially for the driver. The driver's seating position is set high to provide a clear field of view and let the driver focus on the road ahead. For clear visibility, the shape and thickness of the a-pillars and c-pillars are minimized to help reduce blind spots, while a rear quarter window offers a way to perceive potential vehicles or objects in the rear. Further, attention was taken when positioning all of the instruments in the CX-30. For example, the positioning of the shifter and commander control on the floor console is optimized for operating stability, ease and comfort. The available Active Driving Display, meters and standard 8.8-inch center display were all redesigned to present information in a simple fashion, while the fonts used were unified to create a pleasing and consistent look.

2020 MAZDA CX-30 | DRIVE WITH PEACE OF MIND

To deepen the bond of the Mazda ownership experience, the brand is introducing Mazda Connected Services³ as a standard feature on all CX-30 models. This new service will provide even more convenience, peace-of-mind and safety that customers come to expect from Mazda. Many of the features will be accessed by logging into

the MyMazda app. The app will help provide the assurance to know and control the state of CX-30 remotely. This includes being able to remotely lock the doors or remotely start the engine. In the app, CX-30's status can be monitored, such as oil information or tire pressure. Mazda Connected Services will also notify

the owner of any important vehicle alerts or messages from Mazda, such as recall information. Additionally, in-car Wi-Fi hotspot is a separate service available in the vehicles. Being more connected with the car as well as the brand will help heighten the entire premium ownership experience.

[3] Mazda Connected Services is provided during a three-year trial period; annual subscription fees apply thereafter. A compatible phone with cellular or Wi-Fi services is necessary to access Mazda Connected Services features. Verizon is the service provider of Mazda Connect Wi-Fi. Trial or paid subscription required.

2020 MAZDA CX-30 | DRIVE WITH PEACE OF MIND

2020 MAZDA CX-30 | FREEDOM TO GO ANYWHERE

The proportions of the CX-30 give the compact crossover the freedom to go just about anywhere. It's strong presence, class-leading standard horsepower⁴

and available i-Activ all-wheel drive all results in it being able to be driven effortlessly. At the same time, it's as compact as possible to easily maneuver in tight

situations, such as narrow roads or parking spaces. When driving anywhere, the trunk must be just as capable to fit all the items one might need.

[4] Based on standard engine horsepower of Subcompact CUV/SUV non-luxury/non-premium segment (Mazda Segmentation) as of November 2019.

2020 MAZDA CX-30 | FREEDOM TO GO ANYWHERE

Aligned with studying human habits, Mazda engineers and designers conducted research together to better understand the needs of the space. By creating a life-size test model, they were able to test real-life situations and have a variety of people adjust the height of the trunk with a pedal. Through careful examination, the ideal height and size were determined to allow ease of loading cargo, a spacious cabin for both luggage and rear passengers while maintaining a compact and sporty design. It's a challenge that Mazda was able to overcome in order to provide the best possible premium experience for its fans.

2020 MAZDA CX-30 | PRICING AND PACKAGING

The various design concepts, minute refinements and many other details may seem trivial on their own, but together help create a more natural experience in the CX-30. These design concepts along with premium packaging options help create an all-new vehicle that Mazda is very excited about.

Mazda Connected Services with a three-year complimentary trial and in-car Wi-Fi hotspot with a

six-months or 2GB complimentary trial is a new feature standard on all CX-30 models. CX-30 comes standard with an 8.8-inch large center display with Mazda Connect™, an AM/FM eight-speaker sound system with HD Radio™, Bluetooth hands-free phone and audio, automatic on/off LED headlights, electronic parking brake, floor console armrest with storage compartments and cloth seats. Features such as two front USB inputs, power windows with one-touch up/down feature, rain-sensing windshield

wiper, push button start, rearview camera and remote keyless illuminated entry system add convenience for all. The stunning design features 16-inch aluminum-alloy wheels, LED headlight and taillights, LED daytime running lights and a matte finish front grille. For peace of mind, standard i-Activsense safety includes Driver Attention Alert, Mazda Radar Cruise Control with stop and go function, Lane Departure Warning with Lane-Keep Assist, Smart Brake Support and High Beam Control.

2020 MAZDA CX-30 | PRICING AND PACKAGING

With the CX-30 Select trim level, Apple CarPlay™ and Android Auto™ capabilities, Blind Spot Monitoring with Rear Cross-Traffic Alert and Mazda Advanced Keyless Entry are included. The driver can appreciate leather steering wheel and shift knob, while all occupants will notice the leatherette seating surfaces, dual-zone automatic climate control, rear air conditioning vents and rear armrest with cupholders. This trim also upgrades to 18-inch alloy wheels and includes a rear privacy glass.

Upgrading to the CX-30 Preferred will allow occupants to benefit from the Bose® 12-speaker premium audio, gloss finish speaker grille, shark fin antenna, heated front seats, eight-way power and memory driver's seat with lumbar support, memory position door mirrors, black gloss finish front grille and SiriusXM® with three-month trial subscription.

2020 MAZDA CX-30 | PRICING AND PACKAGING

For the most refined experience, the top-trim CX-30 Premium includes a windshield-projected Active Driving Display, leather seats, power liftgate, power moonroof, Adaptive Front Lighting system, roof rails, paddle shifters, cylinder deactivation and LED Signature illumination headlights and taillights.

All CX-30's are equipped with a four-cylinder Skyactiv-G 2.5 paired with a quick-shifting Skyactiv-Drive six-speed automatic transmission. This engine provides class-leading standard horsepower of 186 hp⁵ and is rated to deliver up to 186 lb-ft of torque. The compact crossover is equipped with Mazda's new off-road traction assist

feature, which can potentially help the driver when adventuring on uneven terrain. When the diagonal wheels lose traction, off-road traction assist will stop reducing the engine torque and increase the brake force on the wheels without traction. This transfers power to the wheels still on the ground to help allow the vehicle to regain traction and continue the drive. G-Vectoring Control Plus and front-wheel drive are standard, while Mazda's predictive i-Activ all-wheel drive is available on all trim levels.

A lot of dedication and effort goes into the development of an all-new vehicle, and Mazda spared no expense for the CX-30. The compact crossover is the ideal size to take on an uplifting journey, big or small. It will create an atmosphere where both the driver and passengers can enjoy everyone's company while carrying whatever luggage might be needed for the day's adventure. It is capable of celebrating all of life's milestones with you and before you know it, you'll feel completely at ease in the CX-30's embrace.

[5] Based on standard engine horsepower of Subcompact CUV/SUV non-luxury/non-premium segment (Mazda Segmentation) as of November 2019.
